

Body Stimulator

Automatic Exercise Machine

The Body Stimulator creates rhythmic and optimal body movement to quickly and effectively;

- Maximise blood circulation to supply more blood and oxygen to the tissue
- Boost lymphatic circulation to the extreme (18 times that of walking)
- Increase back flexibility as the movement triggers joints to "lubricate"

10 minutes on the Body Stimulator provides your minimum daily exercise requirement!

It is equivalent to about an hour of regular aerobic exercise in terms of blood circulation. This results in more oxygen in the cells, increased lymphatic circulation, improved detoxification capabilities and higher fitness levels. The combination of these benefits are known to reduce the risk of cardiovascular diseases and other health problems.

Better flexibility and back strength

In addition, the Body Stimulator gives an optimal movement of the joints in the spine, which maximizes their lubrication and leads to better flexibility and back strength. This may be the solution for many common back ailments.

Works alone or with the Health Optimising Cellregulation System

The Cellregulation System features a full body mat which boosts cell-regulation and stimulates cell-energy. See guide for full details.

The combination of the Body Stimulator and the Cellregulation System has synergetic effects due to the tissues being flushed with oxygen. This results in a significantly better effect of both: $1 + 1 = 3$

The Body Stimulator has adjustable settings for time and speed. It must be used in a grounded socket.
